

We're super excited about this! We are officially launching our iWedding Moments Package and our iPad Wedding albums. So much is changing in how we display and share our photographs with our friends, family, and co workers over the last few years and we now have the most exciting, the most convenient, and the most fun way to show off your wedding pictures to the world!

The KMD Creations iPad with wedding photos and uniquely designed wedding album allows you to:

- Have the freedom to easily display your wedding pictures at work, home, or a friend's house with complete ease.
- Share your photos and post them instantly on facebook, blogs, and other social networks.
- Large 9.7-inch diagonal touch screen with vivid LED-backlit IPS display makes viewing your photos on your iPad extraordinary.
- Design and easily create your own photo slideshows using music directly from itunes.
- Keep your spouse (mainly the groom!) interested in your wedding/photos.
- Combine video and still images in one simple to view album. It makes the album an easy to share interactive experience brides have been yearning for. Unlike any album that has been available before.

This is a groom's dream come true! Give the gift of your forever wedding moments along with a great "toy" for your spouse. The ipad album enables couples to view every moment or skip straight to the best parts with ease.

Never before have couples had such control over their album.

Skip, zoom in, zoom out at the touch of your fingers.

The KMD Creations iWedding Moments Package includes an iPad that we have loaded with all of your photos from your wedding day along with a custom designed wedding album viewable on the iPad. The album allows you to scroll through and zoom in on photos/pages. With a smooth look and vibrant colors, it's a post wedding must! It's totally portable, completely eco-friendly, and remarkably cool. It has that new age feel and style that we strive for at KMD.

Another great feature is that you can add photos from your other special moments and events right on to your KMD iPad; for example - family portraits, school events, children, vacations, holidays etc. There is something to be said about not having to lug those albums around to your aunt's house for Thanksgiving dinner!

The iWedding Moments Package includes:

- 8 hours of coverage
- Unlimited number of photos
- 15% off coupon for prints and canvases
- Two lead photographers guaranteed
- CD with all photos professionally edited
- Artistic enhancement and editing (black & white shadings, antiquing)
- Unlimited number of locations on wedding day
- Signed release form
- Online gallery for family and friends to view and purchase photos from your wedding day
- iPad with all edited photos loaded
- Uniquely designed wedding album uploaded on your iPad for viewing and sharing
