

LIVI BLUE PHOTOGRAPHY:

F a m i l y S t y l e G u i d e

After you schedule your session, you're faced with the question "what do we wear"? So, I've put together some sample wardrobe combinations to inspire you and to help you create your own look. Here are a few helpful tips:

1. **Think about the big picture!** Wear clothing colors that coordinate with your home decor because you can display your portraits in your home.
2. **Choose two main hues you love!** Develop your color scheme around those colors. Use the boldest color sparingly.
3. **Layer!** Layers create visual interest and will keep you cozy and warm in the fall weather. Think scarves, cardigans, blazers, and tights. But in the summer, layers just aren't practical to wear. Even in the evenings, the temperature can remain in the mid 80s. Not the type of weather you want to layer up in. To get the same effect, try adding textures to your outfit. Lace, fringe, beading or tulle all are ways to add texture and visual interest to your outfits with adding layers.
4. **Remember to accessorize!** Wear a few well-chosen accessories at a time. Wear items that accentuate your outfit.
5. **For the Ladies,** please have your make-up professionally done. A natural glow will allow you to feel and look like the best version of yourself.
6. **Snap A cell phone pic of it all together,** when you think you have your outfits selected and ready to go, lay them all out together and take a quick cell phone picture of it. When you look at the picture, do you love it? Do you see anything that needs to change? This allows you to make small tweaks or changes before your big day!

If you're uncertain about coordinating your outfits, don't worry! Your photographer is there to help. Let them know if you're stuck.
